Call of the Aethyr – NIA

**NIA, NIA, NIA...**

I see an eye in the sky, clouds around it, it changes into a mouth, and flies away

I see ripples upon the water, it appears to be night, with a light source behind me

A light source appears in front of me on the water, the light source is undefinable.

But a Sun did rise above the water, but shone no light

I see waves upon an ocean

In the water there is a large machine with four arms going around in circles, creating waves as it does it

The water there appears to be something (in it), possibly a sword, stuck into the sand

There seems to be a large wave washing over me creating a cave of water, or tube

The tube has solidified and there is water rushing down the middle of it

I enter it, the sides (of the tube) change from water to the similar organic surface, round tube, I come to a chamber where there is a whirlpool, it is all lighted

In the center, poking up, there is a stick with a round, and possibly a globe upon it

(From above) the whirlpool changed into an eye, then into the universe

I am going through a whirlpool of air-like substance that is going through space

It appears to be a wormhole, I am in space above the planet, I can see the whirlpool of the wormhole ending, almost as if it were a tornado

**NIA, NIA, NIA...**

I am looking at a front of a boat in the water, I am now floating above it, high above it, the boat turns into an eye, and then the eye and the face sink into a whirlpool of water, I will follow the water down.

The tube is slanted down, and there is water flowing in the bottom of it

There are two choices (the tube spits into two), I chose the right

(There is a) thin barrier over the opening and I saw, I sliced through and came through an eye, much like (the eye of) a lizard or an alligator

I am on a road with a fence off to the right side and beyond the fence is Space, stars

Walking down the path, on either side is possible corn stalks

Ahead of me and above the corn stalks are nothing but stars (Space)

I enter a tunnel that originally looked like a Sphinx, I am inside

There is either a doorway or an alter, a rounded arch, built out of stone, \*\* is a chair, made of dark wood, gold fringe,

I see a large eye and a face looking at me

**What is your name?**

**Speak clearly that I might hear you, What is your name?**

**Is your name Na-Ah-Oo-Ta?**

”Yes”

**What are your attributes here in the 24<sup>th</sup> Aethyr of NIA?**

“I am the carrier of those that cannot see the light”

**Please explain by what you mean carrier?**

“I bring those that cannot see the light to the front”

**And those that cannot see the light, you bring those to the front of what?**

“I bring those that cannot see the light to the front of the throne”

**And of which throne do you talk of?**

“It is the throne that you have seen upon”

**Is this throne, the chair of dark wood with golden fringe that I have seen upon entering this place? Please answer me so that I might understand you. Is the throne the chair that I saw when I first came in, that had the golden fringe upon it?**

“No” while he is laughing sarcastically

**Please answer me truthfully and honestly**

**What throne to you speak of then?**

“It is the throne of the unseen, it is the throne that cannot be seen”

**If it cannot be seen, how do you lead those to the front of it?**

“There is a way I know”

What do those, that are led to the front of the throne, do? What happens to those?

“They are shone the way of the light, that cannot be explained”

**And those that do not need to be shone to the front of the throne, are they able to find this light by themselves?**

“Yes”

**Is this the light of God?**

“Yes and No, it is the God within”

**Do you have any words of wisdom for me in this 24<sup>th</sup> Aethyr of NIA?**

“Know thy self and keep within”

**Are there any visions or places you feel I must see within this Aethyr?**

**If so, please take me there now**

“Yes”

I see a round tube going into the earth, I am going above it, there appears to be a throat of a large person, I see their nose, around them is Space, with stars showing

I (now) beyond that, I am floating through Space, flying through space, there is an object in front of me, the top of it is triangle in shape with a round objects on each point

It opens up, it four arms, it can open and change shape from the triangle to like a square on each point, going from each point,

I am seeing large wide rivers of fire coming at me, I am still in space, but as they move toward me, they move over an unforeseen landscape, and define the landscape as such

I am now in Space, there is a rather large cloud, it has four arms around it, jutting up

It has an oval center and in the center, it has a bright light

I am now seeing rushing water, as if from an ocean, beating up against, perhaps, a side of a boat, I am seeing a boat similar to a Viking boat, it appears more Egyptian, the back of the boat, is a large area like a sail boat (from) the 1800's, though the back area (of the ship) does not have windows, it is gilded in gold, it is very ornately carved boat

I am looking again at water, at night, there is something coming at me, I float above it

It is possible that it was three crocodiles or alligators, coming at me and they swam (past me and then) behind me, I see a bird, a pigeon, standing upon a backpack

There is an old man, large, but short, with a cane, big white beard, crown upon his head, walking across the rocky shore

walking across the rocky shore

**What is your name?**

**What is your name, sir?**

“I am the King”

**And to what are you the King of sir?**

“I am the King of western desires”

And what is your name?

**Is your name O-Ah-Te-Pa?**

“Yes”

**Dear King O-Ah-Te-Pa, I am traveling here in the 24<sup>th</sup> Aethyr of NIA, what attributes do you have here?**

“I notice things that are unseen”

**Could you be more specific, on those things that are unseen?**

“I travel upon the edge of the sea and locate those things lost”

**What is the name of this sea that you travel along the side of**

“It is the sea of desire”

**Does it have a name that you call upon it?**

**At-A-Whom-Poo-Oo-Ah?**

**At-A Wamp-Poo-Oo-Ah, is that the name of the sea of desire?**

**What items do you collect here on the seashore of this sea?**

”I collect those things lost of desire”

**Could you be more specific on those things that you collect?**

**Are they items? What items do you collect?**

“I collect the stones that bear the desires that are lost as sea”

**Oh great King, what do you do with these stones, these stones of desire?**

“I build my castle”

**Can you show me this castle of yours? Take me there**

I am walking along a... , first there was a large wall made of stone, along the top, the width is that so that a car could drive upon it, the top appears now to be covered in grass, It appears to be moving and it becomes water the is going to enter a cave

Above the cave is a patch of grass,

**I shall enter the cave**

The cave is round and oval in shape, it is made of stone, the water is moving through here but not very fast, there is a smaller passage way that the water is moving through and I am following that,

Standing in the water is a woman, she has round circular apparatus around her neck, possible perhaps a belt, but otherwise naked.

**What is your name Lady? Please tell me your name?**

**Is your name La-Or-Ri? Please respond so that I might hear you**

“Yes”

**And what attributes do you have here in this 24<sup>th</sup> Aethyr of NIA?**

“I am that which governth the water ways”

**Do you have any words of wisdom that you could bestow upon me in this Aethyr?**

“The water of wisdom stands still for no one”

“There are passages that only water can seep through”

“Wisdom comes to those that drink from the Well of Understanding”

**And where is this Well of understanding? Could you take me there and show me?**

I see a waterway with rocks in it, the water flows through a crack, like a rock wall, I am in a cavern, the water is flowing in a circular pattern around the cavern,

In the center there is a rock circle, with water in it, but it does not flow with the water outside

Upon entering the water it is very still, (there is) droplets rippling on the surface, I am now inside the water, under the water, and now I am up top, I drink the water and now am flowing down a tube of water to a lower chamber, I took a drink of water as I started flowing (down)

I am now under the water, it is a rather large chamber, looking up, there is a light source above, I look around the water, in the center is a round circular (object) with four arms that come out and up

In the center there is a mound, it appears to be like dirt with a large hole going down, there was a bubble, as if a balloon was being blown up and pushed through the chamber, and it burst

I am in another tunnel, the ceiling and walls appear to be tiled, like that of the scales of a snake, The tunnel goes down and down at the bottom of that is water

As I go into the water, I see something fall beside me, I reach for it and pull it toward me, it is like a large fork with only two arms coming out, between those arms is a wire, upon the wire is something that spins, it has the appearance of being a child’s toy, the center piece that spins moves back and forth across the wire, or twine

As I looked through it, I was taken to another room, (There) appears, almost like a windmill, but it is a digging device that is underwater with me, that is digging away at the bank, as dirt is being pushed down toward the bottom, there is a ledge that has a dark water flowing around it, looking over the edge, and that flows into a large river like thing that has large waves, I am floating above it, It flows down between two rocky edges, into

a round basin area

I see near the top of the water, there is a fish swimming in it, like a shark but different  
I am (now) under the water and there is a boat, of some sort, on top of the water above  
me, that move off, above and over my left side,

I am now above the earth, I am floating down and there is a track unfolding, like a ladder  
that goes along the western edge of the United States and goes down into South America,  
from my view, it stretches from the edge of the state of Oregon, it is rather large, but I do  
not know if that is accurate,

I am seeing more images of Space, as it transforms into a watery substance with waves,  
There appeared to be animals within the waves, similar to dogs, but bigger, with peoples  
on their backs

I am within a castle, out in the yard, not a very wide yard, the sun is in the sky and  
shadow covers half the yard, I see a person in armor walking away from me

I follow that person, I am on his right shoulder, he is to the front of me to the left, I look  
down, there appeared a silver flask, brightly polished, reflecting the sunlight back into my  
eyes, there appears like a leather cover, like a book, opening up and showing a silver  
object and then closing back down,

I looked up and there were people carrying a large, tall structure, with a man on top, with  
stairs going up to it, the stairs, (the people) seem to push it into the wall into an open  
space and the stairs seem to lock in and then disappear, and the earth shakes as it locks in  
I am back in Space, there is a structure, looks like a jelly fish, with tentacles all the way  
around it, thin tentacles

**At this time, I am going to pull myself back into my body**

I am back
